# HIT 'EM HIGH.

Konami® unleashes a combination all-out aerial assault and gut churning ground blitz for your NES.™ Its name: Laser Invasion.™ The target: Sheik Toxic Moron and his earth shattering TechnoScorch Missiles.

You'll pilot the Laser Invasion Helijet, an air slicing armor plated powerhouse ready to fire your choice of weapons. You must bank, dive and hover, employing advanced combat techniques against unrelenting waves of airborne enemies.

Then land your bird of prey and charge the Sand Storm Command Center, home of the 3-D Confusion Maze. To get there, pounce on divisions of Pharaoh Phantom tanks, chiller choppers, and an army of grenade throwing, machine gun toting terrors.

Between battles, your life hinges on your own tactical decisions. Gather enough skin saving objects, ammo and intelligence and you'll penetrate the Sheik's fortress of doom. But there won't be much time to do your dirty work. So let the invasion begin.

And now zap \$10 off LaserScope™ Voice Command Optical Targeting Headset with a rebate offer inside every Laser Invasion package.

# A Heap o'Nerf®

## Whaddya mean?

.....► What do we mean? Hey, it's Nerf's 25th birthday and we're giving away a Heap o' Nerf and a chance to be in a TV commercial.

Your friends have birthdays and what do they ever give you? Wanna pay 'em back for those wedgies? Try blasting 15 Razorbeast™ sucker darts or launching a Liquidator™ Football and leaving 'em in the dust! Enter our contest and you can!

Just send us a picture of yourself with your Nerf stuff. Send us a Nerf proof of purchase too. The judges look at all the pictures, choose the one they like best and dump the whole Heap o' Nerf on some lucky kid. Be creative! That's what the judges look for. Don't just stand there like a bowl of tapioca! Pile 'em up, and strap 'em on. Then

grab a camera, say "cheese," and snap away! It's said a picture is worth a thousand words, but what would you do with that? We'll give you a pile of Nerf and put you on TV instead.

You lucky dog, you.

And sometimes off.

With the gut-wrenching, all-terrain racing of Jet Moto, victory isn't a thrill. It's agony. Jet Moto's ten outdoor tracks will lead you and beat you over scorching sand, choppy seas and brittle ice and snow. Your only defense? One of twenty fiercely maneuverable next-gen moto bikes. There's so much going on here, all you need to know is that the grappling hook isn't an option, it's a necessity. That's because with Jet Moto's TruePhysics, every bump, every curve and every pothole will go directly from your suspension to your spleen. It's time you took a Jet Moto test ride. Or better yet, do so against a friend on the two-player split-screen. Only this time, try to keep your eyes on the road, will you?

# Lynx Eats Boy's Lunch.

Lynx plays games in living, pulsing color. Next to Lynx, GameBoy's yellow and black screen is primitive.

Blue Lightning.™ We also have Gates of Zendocon, ElectroCop™ and Gauntlet.®

Chip's Challenge™ has 144 levels, all dangerous.

Lots of games are available, with more being developed. This guy is from California Games.®

Introducing Klax,™ the arcade hit. Zarlor Mercenary,™ Rampage,™ Xenophobe™ and Vindicators™ are coming soon.

You can connect up to 8 Lynxes. On some games, all 8 players can be on screen at once.

Hey, sorry GameBoy.™ But Lynx is the first color portable game system. It also happens to be a lot more exciting than most home video game systems. Lynx has high definition SuperGraphics, with 16-bit power for faster action, much deeper levels of game play and the ability to link up to 8 players at once. Try playing Lynx just once. That's all it'll take to leave your little boy games behind.

The process of deconstructing the anatomy begins with bruising at the point of contact, leading to bloody contusions and cerebral hemorrhage.

The deconstruction nears completion as limbs weaken and break from continuous physical abuse, finally rendering the enemy useless.

And legs. And even wits. Because in *Prince of Persia*® from Konami®, only a fast mind and fit muscles can conquer all 20 Super NES™ stages, including 8 you've never seen anywhere before.

Once sealed inside the desert palace maze you'll hardly have time to appreciate the awesome high resolution graphics, incredibly cool life-like player animation, and mood setting Arabian melodies. Because when you're not hanging by your fingertips over spiked pits or leaping through razor sharp guillotines, you'll be saber dueling with skeletal remains and vicious turbaned terrors.

The sands of time are against you, so you must be constantly on the move, making split second decisions with no margin for error. Is that vessel filled with poison or life giving nectar?

Will that floor cave in or open a secret passage? Only the sultan of sin Jaffar knows for sure. And he'll even use magic to keep you from rescuing the princess and becoming the Prince of Persia.

# A Classic Western Now

Saddle up your

the guns ablazing action of *Sunset Riders*,  
the wild western arcade hit of the year.

Bounty hunt the frontier's fiercest

including lawless outposts like  
Reechforem Gulch. The stampede of  
bad guys will keep one or two tough  
hombres busy firing fast and furious  
at cattle thieves, gunslingers, and  
Indians who have no reservations  
about attacking.

The trail is littered with extra  
bounty loot, six-shooter power-ups  
and decidedly destructive dynamite. Ride your trusty  
steed through bonus stages that hold survival items more precious  
than a sack of gold dust. And get a feel for the trigger-in-the-Versus mode where you  
and your compadre can shower each other with lead. Hot dang, be sure to hitch up  
with the most rip snortin', knee slappin' blast from the

# BALLISTIC.

Blast off into 7 epic stages of adventure and go hog wild against the hugest, strangest pig creatures imaginable. They're after the mysterious Key to the Seal once handed down by the brave founder of Zebulous. In the wrong hands it will unleash total destruction. Through every stage Sparkster moves, flies and rides in new directions to escape opossum punishment. Will he hang tough? You bet, 'cause his talented tail can get a grip on all kinds of hairy situations.

You're the thrust-miester controlling our hero's jet pack and his assault sword. And you better kick some pork butt because Sparkster's animal magnetism attracts mechanized pig mutants like the Giant Pigbot and the Drill of a Lifetime. You'll go gonzo over spectacular new graphic techniques like the mirrored lava pools, the rotating gravity room, and Axle Gear's massive laser blaster.

That's only some of what awaits Sparkster the Rocket Knight. So rustle up some courage and launch into the most animalistic action this side of Zebulous.

# This couldn't wait 'til the 21<sup>st</sup> century.

The "X" generation of Mega Man adventures is here.  
For the first time on the Super NES.

As his last great creation, Dr. Light developed "X"—the first thinking, decision-making robot. Years later, Dr. Cain modifies his design to make thousands of supposedly "harmless" Reploids. That is until Sigma, the most intelligent Reploid of all, decides to lead the others in eliminating all humans from the planet. Now "X" must hunt down Sigma using his all-new arsenal, including the X-Buster and the awesome Emergency Acceleration System. It's the Mega battle of the next century, found only on the Super NES.

"X" uses his X-Buster to save Zero, the leader of the Maverick Hunters from the evil Vile.

When the robotic amoeba glues "X" to the ground, either he shoots or he's stuck.

"X" destroys an enemy submarine fuel tank and things get extremely explosive.

# Play a Game With a Lot Of Horsepower.

**G**rab your six shooter and strap on a pair of high top spurs, because the Lone Ranger rides again. Only this time he's gunnin' for trouble on your NES™. It's the wild west adventure your trigger finger's been itchin' for, with eight shoot 'em up stages that challenge you to rescue the President from the clutches of Butch Cavendish. Blast through ambushes. Search for treasure. And gunfight with varmints. Until you save the Head Honcho. Or get knocked off your high horse!

## You ask HOW? I'll tell you, Kemosabe!

This in-depth guide screen leads you through 15 towns, four camps and numerous forts. To reach each location, you'll hop trains and ride your trusty horse Silver. Be sure to consult the map Tonto's drawn for you, or else you'll be chasing misleading smoke signals.

## An overview of your dilemma.

The overhead screens are the orneriest of all, and the lead will really fly as you confront the west's wildest gunfighters. You'll also tap with friendly townsfolk who think they have all the answers. Be careful not to let any stray bullets bounce off innocent schoolmarms. That'll cost you important clues and put you within neck's length of the hangman's noose.

## Ya gotta know when to hold 'em, know when to blast 'em.

One of the many challenges confronting you is the high stakes poker hall, where the card you draw is as important as the gun. Here you can make a mint or lose your mask.

When you need more bang for your buck, visit the gunsmith's shop. Just remember, your credits no good here. So grab all the loot you can from defeated train robbers. That way you can afford those expensive silver bullets.

## Different viewpoints help you through this multi-dimensional adventure.

When exploring 3-D railroad cars and mining caves you can get into deep trouble. Luckily you have the option of pulling the Zapper® or Konami LaserScope™ from your holster to make the bad guys bite the bullet. The 2-D side views are tricky areas. Often you'll meet a stranger who's willing to offer advice. Sometimes it's free. Sometimes it's mucho dinero.

## The power to stop the reign.

You're about to strafe the stratosphere, obsessed with ending the long bloody reign of King Nemesis. Suddenly, that heap of rancid royalty's horde of henchmen swoops down out of a nebula, spraying you with lethal molecular bursts. You grit your teeth, clench the controls of your pressure-cooking starfighter, the Proteus 911, and power up its arsenal of land-blasting lasers and dual devices of destruction.

But wait! A barrage of enertron bullets streaks toward you. With lightning reflexes you fire your mauling missiles as you're hurled into yet another level of terror. Your last hope is to double your firepower and create a duplicate starfighter with the ship-cloning option. What will be your fate?

Bonus levels...or oblivion?

A fortress of international evil designed to sap every ounce of your brains and brawn. At each turn you must fend off snipers and fire bomb maniacs. Elude spy cameras and robot sentries. Escape from countless enemies in hot pursuit. All in your desperate search for booby-trapped clues, secret ID cards and life-saving switches.

And why? Because the worldwide terrors known as the Sinister Seven have kidnapped Dr. "O," his nuclear military defense system and IMF

agent Shannon Reed, and now they threaten to wreak planetary chaos.

Luckily, your agents are well schooled in the art of espionage and possess their own favored fire-power, from rifles to remote control cluster bombs. But that's no guarantee you'll make it past brutes like Slash Stiletto, Blitz Blizzardski and the Iron Claw. If by chance you do, there's always the hyper speed-boat chases through Venice, hand grenade ski runs down the Swiss Alps, and prison camps in the Pyrenees mountains.

Remember, should you choose to accept this mission and fail, you, your Nintendo® and the world will self-destruct in five seconds.

Over 18,000 years ago many of the men in China dedicated their life to the study of philosophy. And then applied it to a war to end all wars.

The country was plagued by a bandit hoarde known as the Yellow Scarves. Who amassed a power no one had yet to conquer. Fact is, no one could assemble a force strong enough to destroy them.

In Destiny of an Emperor, your challenge is to change the course of history forever. For the good of China. And the world.

This full scale, role playing adventure game for the Nintendo System will put you deep in the throes of that war.

The action is as real as it gets thanks to the discovery of authentic documents detailing the era.

Characteristics of 180 warlords have been simulated based on the renowned text of *Sanquozhi Yanyi*.

Even 20th century strategists are destined to spend hours, even days on each game. And when you take a break to philosophize on your next action (if you can pull yourself away) you

Chinese warlord of all, Lu Bu, destined to be a traitor because of his great strength and courage.

## Conquering this game will take you centuries.

In the mountains, rebels await behind every tree.

can actually save up to three histories exactly where you've left off.

You can put yourself in the place of Liu Bei, dedicated to raising an army for the restoration of the dynasty. Or Guan Yu, an exceptionally skilled warrior, match for a thousand soldiers and worshipped as a god.

But no matter who you are, it will be hard to win the war against Zhang Jao, the deadly leader of the Yellow Scarve rebels and founder of the Tai Ping sect. Not to mention the most feared

You'll use every strategic cell in your brain to fulfill your constant requirements for weapons, food and manpower. You'll give important commands that could mean your life, and the life of your armies. And in true Chinese tradition, you'll engage in battle again and again to defend your honor. An honor certified by an oath signed in blood.

When all is said and done, there will be room for only one Emperor. Whether or not that will be you is your destiny alone.

# IT'S A HIT!

Bottom of the 10th, two outs, bases loaded, and the league's best hitter is at the plate. Will he take your screwball downtown? Or will you blow him away with your awesome fastball? Find out when you play Extra Innings, the amazing new baseball game for Super NES.

Select your starting lineup based on who's hot and who's not. With Extra Innings, you call the shots and control the action: the spin on the curveball, your batter's slugging power, even your player's dive for a shot up the middle.

When you play Extra Innings, you

can put on a hit and run, take a long lead off first, or nail a base runner at the plate on a sacrifice fly. Play like the pros as you fight for a 12-team league pennant. And remember, statistics are updated and available on every player. You even select the stadium — air dome, midsize, or high-walled. Every choice changes the game.

There's never been a baseball game like Extra Innings. Eight different playing options, including two-player mode and all-

star team competition, make this the hit of the season. Extra Innings. It's a home run!
